Instructions

In addition to all other information requested within the Instruction to Bidders, each Bidder shall complete the table below to quantify the Bidder's economic impact upon and within the State of Maine. The use of the economic impact in the making the contract award decisions is outlined in Executive Order 2012-004, which states that certain contracts advertised for competitive bid shall include scoring criteria evaluating the responding Bidder's economic impact on the Maine economy and State revenues.

The economic impact of this project shall be calculated for scoring purposes using the "Economic Impact Factors" listed in the table below. Each Bidder shall provide the information requested below along with information to support their percentage claims.

Economic Impact Factor	% Value of Submitted Bid
Payments to Maine Based General Contractor	%
Payments to Maine Based Sub-Contractors	%
Payments to Maine Based Product Manufacturers	%
Total Economic Impact (% Value of Submitted Bid)	%

For the table above, the following definitions are provided:

- "Maine Based": any organization whose primary operations are located within the State of Maine.

Evaluation Criteria

The submitted bids shall be reduced by 1% for each 10% of "Total Economic Impact" (or percentage thereof) as a basis of determining the value of the economic impact on the State of Maine. *Note: The final contract shall still be based upon the full value of the submitted bid.*

Certification Statement

To the best of my knowledge all information provided above is complete and accurate at the time of submission, and I confirm that I am authorized to make such a determination on behalf of my organization.
